FREE CHECK · PAGE 1: FIND YOUR NUMBER

For UK main contractors managing supplier & subcontractor invoices

The Month-End Supplier Invoice Check: what's unmatched, unapproved or missing?

Supplier and subcontractor invoices that are unmatched, unapproved or missing at month end are money you may owe, may have overpaid, or can't yet account for. This check shows how to find your own figure from your own purchase ledger.

You need: Your purchase ledger, approval queue and supplier statements. No confidential records leave your business.

1. **Export everything received this month.** Purchase ledger entries, plus invoices still in the approval queue or an inbox and not yet posted.
2. **Find invoices not matched.** No match to a purchase order, subcontract or valuation, including any already paid without a match. Total them as Box A.
3. **Find invoices matched but not approved.** Waiting on the person who placed the order, the site manager or the QS. Add them to Box A.
4. **Compare supplier statements with your ledger.** Invoices on a supplier's statement that you have no record of are missing. Add them to Box A.
5. **Check subcontractor deductions.** Compare the retention and CIS deductions applied with the subcontract terms and the subcontractor's verified CIS status. Total any differences as Box B.

A · Invoices unmatched, unapproved or missing at month end	£
B · Retention and CIS deduction differences found	£
Your month-end figure: A, with B noted separately	£

Keep B separate from A: B is a difference in deductions, not an invoice total. This is your own number from your own records. We don't publish averages or benchmarks for it.

> CIS verification and deductions remain your legal responsibility as the contractor. This check helps you spot differences; check any CIS question against HMRC guidance or with your adviser.

PAGE 2: WORKED EXAMPLE

For UK main contractors managing supplier & subcontractor invoices

How the check works on one month's records

FICTIONAL EXAMPLE · CONTRACTOR B (FICTIONAL)

This organisation, its records and every figure on this page are invented to show the method. They are not typical results, averages or benchmarks, and they don't describe any real business. Your own figures will differ.

Supplier or subcontractor	Invoice	Value	What the check found	Box
Groundworks subcontractor	Application 7	**£18,400**	Matched to valuation, not yet approved by QS	A
Plant hire supplier	INV-2231	**£2,960**	No purchase order found	A
Timber merchant	INV-8810	**£1,140**	On supplier statement, not in ledger	A
Electrical supplier	INV-0457	**£4,350**	Paid, but never matched to a PO	A
Scaffolding subcontractor	Application 3	**£9,800**	Retention deducted at 3%; subcontract says 5%	**B: £196**

A · Unmatched, unapproved or missing	£26,850
B · Deduction difference	£196
Fictional month-end figure	**£26,850 + £196 noted**

The scaffolding invoice is otherwise matched, so only the £196 retention difference is logged.

> Using your own numbers: repeat the steps on page 1, then copy each item into the action queue on page 3 so every one has an owner, evidence and a date.

PAGE 3: MONTHLY ACTION QUEUE

For UK main contractors managing supplier & subcontractor invoices

One line per item, reviewed monthly

Typical items: an invoice to match, an approver to chase, a statement line to find, a deduction to correct.

Item	Amount (£)	Owner	Evidence	Next action	Date

Month: _____ Reviewed by: _____ Total open (£): _____

PAGE 4: WHAT DONE-FOR-YOU LOOKS LIKE

For UK main contractors managing supplier & subcontractor invoices

Want it run for you each month?

If you'd rather not run this yourself every month, we run it for you as a service. It's done by people, not software you have to buy and set up. Each month, we:

- Collect and log incoming invoices from inboxes and supplier portals.
- Match each one to its PO, subcontract or valuation, and flag exceptions.
- Chase approvers before month end and reconcile supplier statements.
- Check retention and CIS deductions against the subcontract and flag differences for you.

What stays with you

Approvals, payments and CIS responsibility stay with you. We prepare and check; we don't take on your compliance liability.

What we'd need

A monthly export or read-only access to the reports named on page 1, and one named contact. Scope and terms are agreed in writing before we start.

What it isn't

Not a software licence, not a promise of any amount recovered, and not legal, tax or financial advice. If the check shows nothing worth fixing, we'll say so.

Optional: a free 15-minute call about month-end supplier and subcontractor invoices

If this is a live issue for your business, we'll look at your process with you and how we'd run it for you. No obligation.
