FREE CHECK · PAGE 1: FIND YOUR NUMBER

For UK domiciliary care agencies with council or NHS contracts

The Homecare Remittance Gap Check: invoiced vs actually paid

When a commissioner remits less than you invoiced, the gap is money for care already delivered. This check shows how to find your own figure from your own invoices and remittance advices, with no care-recipient details needed.

You need: Your last three months of commissioner invoices and remittance advices. No confidential records leave your business.

1. **Gather three months of invoices and remittances.** For each council or NHS commissioner, match every invoice to its remittance advice using the invoice number or period reference.
2. **Record invoiced vs remitted for each invoice.** The difference is the gap. Use invoice and period references only; leave out care-recipient names and care details.
3. **Separate short payments from late payments.** Paid, but less than invoiced, is a short payment: total it as Box A. Not yet paid and past terms is a late payment: total it as Box B.
4. **Note the reason for each short payment.** As shown on the remittance or portal, for example: rate applied, visits or hours adjusted, cancelled-visit rule, package change date.
5. **Note the evidence you hold.** Commissioned plan or purchase order, rota or call-monitoring visit records, and the current rate letter.

A · Short payments: remitted less than invoiced	£
B · Late payments: not yet paid and past terms	£
Your remittance gap: A, with B tracked separately	£

Late payment is not the same as underpayment. Keep B separate: it may still be paid in full. This is your own number from your own records. We don't publish averages or benchmarks for it.

> This check needs no care-recipient details. Keep any working sheet to invoice and period references so it holds no personal information about the people you support.

PAGE 2: WORKED EXAMPLE

For UK domiciliary care agencies with council or NHS contracts

How the check works on one month's records

FICTIONAL EXAMPLE · AGENCY D (FICTIONAL)

This organisation, its records and every figure on this page are invented to show the method. They are not typical results, averages or benchmarks, and they don't describe any real business. Your own figures will differ.

Commissioner · invoice	Invoiced	Remitted	Reason shown	Box
Council X · Aug	**£18,600**	**£17,940**	Previous hourly rate applied	**A: £660**
Council X · Sep	**£19,200**	**£18,450**	Visits adjusted against call monitoring	**A: £750**
NHS commissioner Y · Aug	**£6,300**	**£6,300**	Paid in full	None
NHS commissioner Y · Sep	**£6,480**	**£5,940**	Package change date applied early	**A: £540**
Council X · Oct	**£19,050**	**£0**	Not yet paid; 12 days past terms	**B: £19,050**

A · Short payments	£1,950
B · Late payment	£19,050
Fictional remittance gap	**£1,950 (B tracked)**

The October invoice is late, not short. It is tracked in B until it is paid or short-paid.

> Using your own numbers: repeat the steps on page 1, then copy each item into the action queue on page 3 so every one has an owner, evidence and a date.

PAGE 4: WHAT DONE-FOR-YOU LOOKS LIKE

For UK domiciliary care agencies with council or NHS contracts

Want it run for you each month?

If you'd rather not work these queries yourself every month, we run it for you as a service. It's done by people, not software you have to buy and set up. Each month, we:

- Match every remittance to its invoice each month.
- Log each short payment with its reason and the evidence that supports your invoice.
- Raise and follow up queries with commissioners' finance teams, using invoice references.
- Send a monthly summary: short payments, late payments, and what has been resolved.

What stays with you

Contract and rate discussions stay with you. We work only from invoice and remittance references unless you agree otherwise in writing.

What we'd need

A monthly export or read-only access to the reports named on page 1, and one named contact. Scope and terms are agreed in writing before we start.

What it isn't

Not a software licence, not a promise of any amount recovered, and not legal, tax or financial advice. If the check shows nothing worth fixing, we'll say so.

Optional: a free 15-minute call about commissioner short payments and remittance gaps

If this is a live issue for your agency, we'll look at your process with you and how we'd run it for you. No obligation.
